ELSEVIER

Biomembranes

Vol. 1196, 1994

BBA Biochimica et Biophysica Acta

Author Index

Anderson, M.N., see Myers, S.M. (1196) 21
Apell, H.-J., see Ivashchuk-Kienbaum, Yu.A. (1196) 29

Beissinger, R.L., see Zheng, S. (1196) 123
Beppu, M., Inoue, M., Ishikawa, T. and Kikugawa, K.
Presence of membrane-bound proteinases that preferentially degrade oxidatively damaged erythrocyte membrane proteins as secondary antioxidant defense (1196) 81
Bersohn, M.M., see Tsuruya, Y. (1196) 97
Binder, H., see Heerklotz, H. (1196) 114
Bouvier, J., see Kochevar, I.E. (1196) 172
Brandl, M. and Gregoriadis, G.
Entrapment of haemoglobin into liposomes by the dehydration-rehydration method: vesicle characterization and in vivo behaviour (1196) 65
Bräutigam, C., see Engelmann, B. (1196) 154
Brink, G., Schmitt, L., Tampé, R. and Sackmann, E.
Self assembly of covalently anchored phospholipid supported membranes by use of DODA-Suc-NHS-lipids (1196) 227

Casado, F.J., see Ruiz-Montasell, B. (1196) 45
Cevc, G., see Zellmer, S. (1196) 101
Chung, S.-H., see Saint, D.A. (1196) 131
Creeth, J.E., see Jones, M.N. (1196) 57

Dale, R.E., see Plášek, J. (1196) 181
Dostaler, S.M., see Myers, S.M. (1196) 21
Droppa, M., see Ivancich, A. (1196) 51
Duhm, J., see Engelmann, B. (1196) 154

Engelmann, B., Bräutigam, C., Kulschar, R., Duhm, J., Prenner, E., Hermetter, A., Richter, W.O., Thiery, J. and Seidel, D.
Reversible reduction of phospholipid bound arachidonic acid after low density lipoprotein apheresis. Evidence for rapid incorporation of plasmalogen phosphatidylethanolamine into the red blood cell membrane (1196) 154
Epstein, L., see Pikuła, S. (1196) 1

Farkas, T., see Ivancich, A. (1196) 51
Felipe, A., see Ruiz-Montasell, B. (1196) 45
Fell, R.D., see Wheeler, T.J. (1196) 191
Ferrer-Martinez, A., see Ruiz-Montasell, B. (1196) 45
Fresco, R., see Zheng, S. (1196) 123

Gobbo, S., see Ricchelli, F. (1196) 165
Goñi, F.M., see Viguera, A.-R. (1196) 76
González-Mañas, J.-M., see Viguera, A.-R. (1196) 76
Gregoriadis, G., see Brandl, M. (1196) 65

Hauck, M.A., see Wheeler, T.J. (1196) 191
Heerklotz, H., Binder, H., Lantzsch, G. and Klose, G.
Membrane/water partition of oligo(ethylene oxide) dodecyl ethers and its relevance for solubilization (1196) 114
Hermetter, A., see Engelmann, B. (1196) 154
Hill, K.J., see Jones, M.N. (1196) 57
Hodson, S.A., see Wigham, C.G. (1196) 88
Horváth, G., see Ivancich, A. (1196) 51
Horváth, L.I., see Ivancich, A. (1196) 51

Ibarz, E., Palmgren, M.G., Palazón, J., Piñol, M.-T. and Serrano, R.
Activation of plant plasma membrane H^+-ATPase by the non-ionic detergent Brij 58 (1196) 93
Inoue, M., see Beppu, M. (1196) 81
Ishikawa, T., see Beppu, M. (1196) 81
Ising, W., see Ziegler, K. (1196) 209
Ivancich, A., Horváth, L.I., Droppa, M., Horváth, G. and Farkas, T.
Spin label EPR study of lipid solvation of supramolecular photosynthetic protein complexes in thylakoids (1196) 51
Ivashchuk-Kienbaum, Yu.A. and Apell, H.-J.
Separation and characterization of Na^+,K^+-ATPase containing vesicles (1196) 29

Jääskeläinen, I., see Lappalainen, K. (1196) 201
Jones, M.N., Kaszuba, M., Reboiras, M.D., Lyle, I.G., Hill, K.J., Song, Y.-H., Wilmot, S.W. and Creeth, J.E.
The targeting of phospholipid liposomes to bacteria (1196) 57
Jori, G., see Ricchelli, F. (1196) 165

Kaila, D., see Wigham, C.G. (1196) 88
Kaszuba, M., see Jones, M.N. (1196) 57
Kates, M., see Pugh, E.L. (1196) 38
Kikugawa, K., see Beppu, M. (1196) 81
Klose, G., see Heerklotz, H. (1196) 114
Kochevar, I.E., Bouvier, J., Lynch, M. and Lin, C.-W.
Influence of dye and protein location on photosensitization of the plasma membrane (1196) 172
Kolac, C., see Ziegler, K. (1196) 209
Krämer, R., see Ruhrmann, J. (1196) 14
Kulschar, R., see Engelmann, B. (1196) 154

Lantzsch, G., see Heerklotz, H. (1196) 114
Lappalainen, K., Urtti, A., Söderling, E., Jääskeläinen, I., Syrjänen, K. and Syrjänen, S.
Cationic liposomes improve stability and intracellular delivery of antisense oligonucleotides into CaSki cells (1196) 201
Laskay, G., see Plášek, J. (1196) 181
Li, Z., see Tsuruya, Y. (1196) 97
Lin, C.-W., see Kochevar, I.E. (1196) 172
Lombardo, C.R. and Low, P.S.
Calmodulin modulates protein 4.1 binding to human erythrocyte membranes (1196) 139
Low, P.S., see Lombardo, C.R. (1196) 139
Lyle, I.G., see Jones, M.N. (1196) 57
Lynch, M., see Kochevar, I.E. (1196) 172

Martonosi, A., see Pikuła, S. (1196) 1
Moreno, G., see Ricchelli, F. (1196) 165
Myers, S.M., Ross, G.M., Dostaler, S.M., Anderson, M.N., Weaver, D.F. and Riopelle, R.J.
Putative cytoplasmic amphiphilic domains in the nerve growth factor/tumour necrosis factor receptor superfamily (1196) 21

Nicoll, D.A., see Tsuruya, Y. (1196) 97
Nikolov, P., see Ricchelli, F. (1196) 165

Palazón, J., see Ibarz, E. (1196) 93
Palmgren, M.G., see Ibarz, E. (1196) 93
Pastor-Anglada, M., see Ruiz-Montasell, B. (1196) 45
Peters, J. and Witholt, B.
Solubilization of the overexpressed integral membrane protein alkane monooxygenase of the recombinant *Escherichia coli* W3110[pGEc47] (1196) 145
Philipson, K.D., see Tsuruya, Y. (1196) 97
Pikuła, S., Epstein, L. and Martonosi, A.
The relationship between phospholipid content and Ca^{2+}-ATPase activity in the sarcoplasmic reticulum (1196) 1
Piñol, M.-T., see Ibarz, E. (1196) 93
Plášek, J., Dale, R.E., Sigler, K. and Laskay, G.
Transmembrane potentials in cells: a diS-C_3(3) assay for relative potentials as an indicator of real changes (1196) 181
Prenner, E., see Engelmann, B. (1196) 154
Pugh, E.L. and Kates, M.
Acylation of proteins of the archaebacteria *Halobacterium cutirubrum* and *Methanobacterium thermoautotrophicum* (1196) 38
Pugsley, M.K., see Saint, D.A. (1196) 131

Reboiras, M.D., see Jones, M.N. (1196) 57
Ricchelli, F., Nikolov, P., Gobbo, S., Jori, G., Moreno, G. and Salet, C.
Interaction of phthalocyanines with lipid membranes: a spectroscopic and functional study on isolated rat liver mitochondria (1196) 165
Richter, W.O., see Engelmann, B. (1196) 154
Riopelle, R.J., see Myers, S.M. (1196) 21
Risse, P., see Zellmer, S. (1196) 101
Ross, G.M., see Myers, S.M. (1196) 21
Ruhrmann, J., Sprenger, G.A. and Krämer, R.
Mechanism of alanine excretion in recombinant strains of *Zymomonas mobilis* (1196) 14
Ruiz-Montasell, B., Ferrer-Martinez, A., Casado, F.J., Felipe, A. and Pastor-Anglada, M.
Coordinate induction of Na^+-dependent transport systems and Na^+,K^+-ATPase in the liver of obese Zucker rats (1196) 45

Sackmann, E., see Brink, G. (1196) 227
Saint, D.A., Pugsley, M.K. and Chung, S.-H.
An analysis of cardiac sodium channel properties using digital signal processing techniques (1196) 131
Salet, C., see Ricchelli, F. (1196) 165
Schmitt, L., see Brink, G. (1196) 227
Schnaar, R.L., see White, T.K. (1196) 218
Seidel, D., see Engelmann, B. (1196) 154
Serrano, R., see Ibarz, E. (1196) 93
Sigler, K., see Plášek, J. (1196) 181
Söderling, E., see Lappalainen, K. (1196) 201
Song, Y.-H., see Jones, M.N. (1196) 57
Sprenger, G.A., see Ruhrmann, J. (1196) 14
Syrjänen, K., see Lappalainen, K. (1196) 201
Syrjänen, S., see Lappalainen, K. (1196) 201

Tampé, R., see Brink, G. (1196) 227
Taneva, S., see Viguera, A.-R. (1196) 76
Thiery, J., see Engelmann, B. (1196) 154
Tsuruya, Y., Bersohn, M.M., Li, Z., Nicoll, D.A. and Philipson, K.D.
Molecular cloning and functional expression of the guinea pig cardiac Na^+–Ca^{2+} exchanger (1196) 97

Urtti, A., see Lappalainen, K. (1196) 201

Viguera, A.-R., González-Mañas, J.-M., Taneva, S. and Goñi, F.M.
Early and delayed stages in the solubilization of purple membrane by a polyoxyethylenic surfactant (1196) 76

Weaver, D.F., see Myers, S.M. (1196) 21
Wheeler, T.J., Fell, R.D. and Hauck, M.A.
Translocation of two glucose transporters in heart: effects of rotenone, uncouplers, workload, palmitate, insulin and anoxia (1196) 191
White, T.K. and Schnaar, R.L.
Solubilization of a membrane-associated protein from rat nervous system tissues which binds anionic glycolipids and phospholipids (1196) 218
Wigham, C.G., Kaila, D. and Hodson, S.A.
Determination of pathways for sodium movement across corneal endothelial cell derived plasma membrane vesicles (1196) 88
Wilmot, S.W., see Jones, M.N. (1196) 57
Witholt, B., see Peters, J. (1196) 145

Zellmer, S., Cevc, G. and Risse, P.
Temperature- and pH-controlled fusion between complex lipid membranes. Examples with the diacylphosphatidylcholine/fatty acid mixed liposomes (1196) 101
Zheng, S., Zheng, Y., Beissinger, R.L. and Fresco, R.
Microencapsulation of hemoglobin in liposomes using a double emulsion, film dehydration/rehydration approach (1196) 123
Zheng, Y., see Zheng, S. (1196) 123
Ziegler, K., Kolac, C. and Ising, W.
ATP-dependent transport of the linear renin-inhibiting peptide EMD 51921 by canalicular plasma membrane vesicles of rat liver: evidence of drug-stimulatable ATP-hydrolysis (1196) 209
